ABOUT ATHENA ERUDITION

We're a community of finest and passionate educators. Our digital resources, tools, and learning materials are developed by educational experts to incorporate leading pedagogical practices. Our key focus is on providing quality learning atmosphere to students. Our flagship courses are Digital Marketing, Software Development, Embedded Programming, Accounting and Stock Market Analysis.

COURSE INTRODUCTION

In today's scenario, Financial Accounting pertains to the language of businesses for all stakeholders of a company whether big or small. Corporations are funded largely by public money, thus the importance of financial accounting increased for better transparency and reporting. SAP is one of the largest ERPs which fulfills the needs of the different complex environments.
